<i>PAT Margin</i>	<i>2.0%</i>	<i>3.9%</i>	<i>-184 bps</i>	<i>5.6%</i>	<i>7.0%</i>	<i>-135 bps</i>

Commenting on the performance for the quarter, Mr. Pushkar Khurana, Chairman and Executive Director and Mr. Puneet Khurana, Managing Director, said in a joint statement:

"We are pleased to report that FY2025 has been a year of strong growth and operational success for EKC. Consolidated revenues grew by 23% to Rs. 1,499 crores, driven by healthy demand across both our domestic and US businesses. While realisations softened during the year, we maintained strong profitability with a PAT of Rs. 98 crores, reflecting the resilience of our diversified portfolio and the strength of our execution across key geographies.

India's CNG market has seen remarkable growth during the year, reflecting the growing preference for cleaner, cost-effective mobility solutions, particularly among price-sensitive consumers seeking environmentally friendly alternatives. The expansion of CNG infrastructure across the country is further accelerating adoption, supporting continued growth in both the passenger and commercial vehicle markets.

Our greenfield project in Egypt is progressing as planned and is expected to be completed by Q3 FY26. The project is poised to play a pivotal role in supporting Egypt's national objectives of expanding CNG adoption. The government's push to convert vehicles to CNG aligns perfectly with our goals, and we are committed to playing an integral part in meeting this growing demand.

Looking ahead, we remain committed to strengthening our leadership in high-pressure gas solutions. Our focus will continue to be on innovation, operational efficiency, and expanding our global footprint to drive long-term value for all stakeholders."

Key Developments:

Announces annual dividend of Re. 0.70 /- per share

- For FY 2024-25, the Board of Directors recommended a dividend of Re. 0.70 /- per share on the face value of Re. 2 per share
- For details on the dividend distribution policy, please refer to the Company's website at [EKC-Dividend Distribution Policy](#)

About Everest Kanto Cylinder Limited

Everest Kanto Cylinder Limited (EKC) (BSE: 532684, NSE: EKC), established in 1978, is a clean energy solutions company and a leading global manufacturer of seamless steel gas cylinders with over 20 million industrial gas and CNG cylinders currently in service.

EKC operates two manufacturing facilities in India located at Tarapur (Maharashtra) and Kandla SEZ (Gujarat) and two international facilities at Jebel Ali Free Zone in Dubai and Pittsburgh (PA), USA, with aggregate capacity of about 1.5 million cylinders annually. EKC's product range of industrial, CNG and jumbo cylinders is used for high pressure storage of gases such as oxygen, hydrogen, nitrogen, argon, helium, air etc and finds applications in a wide variety of industries such as manufacturing, fire equipment/suppression systems, medical establishments, aerospace/ defence and automobiles apart from some specialized usage areas.

Given its strong position in the Indian domestic market and wide acceptance across several key international markets built over the last four decades, EKC is poised to benefit from the increasing usage of gases in industrial production and automobile sectors based on both economic and environmental considerations.
